DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on August 17, 2009 has been entered.
2. In the remarks filed on July 21, 2009, Applicant amended claims 17, 42 and 43 and submitted arguments for allowability of pending claims 1, 2, 5, 10-13, 17-19, 21, 25-28, 32, and 34-43.

Allowable Subject Matter

3. **Claims 1, 2, 5, 10-13, 17-19, 21, 25-28, 32, and 34-43** (to be renumbered claims 1-26) are allowed.
4. The following is an examiner's statement of reasons for allowance:

None of the references of record, alone or in combination, suggest or fairly teach the limitations of independent claims 1, 17, 32, 42 and 43 in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to disclose a method for managing a write-once optical recording medium, a write-once recording medium, an apparatus for managing an optical recording medium, a method for reproducing management information for managing a defect on an optical recording

medium or an apparatus for reproducing management information for managing a defect on an optical recording medium having at least one defective area in a user data area, wherein the optical recording medium comprises one or more temporary defect management areas and a final defect management area, and said method comprises (a) recording data of the at least one defective area existing in the user data area into a spare area of the optical recording medium as replacement data and providing a first temporary defect list having a defect entry for the at least one defective area; (b) recording, in one of the one or more temporary defect management areas, a cumulative temporary defect list for an additional defective area in the user data area, wherein the cumulative temporary defect list includes the first temporary defect list previously recorded and at least one additional defect entry for any additional defective area, each defect entry including position information of a corresponding defective area and position information of replacement data to replace data of the corresponding defective area; (c) recording, in the same temporary defect management area on which the cumulative temporary defect list is recorded, access information for accessing the cumulative temporary defect list; and (d) recording a latest cumulative temporary defect list recorded in the one temporary defect management area in the final defect management area when the optical recording medium is to be finalized, wherein after finalizing the optical recording medium no additional recording is made to the optical recording medium, wherein the one or more temporary defect management areas are separately positioned from the final defect management area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
